Research Institution Visit Report

Place : Indian Institute of Science, Karnataka

Time : 9:30 am – 2:00 pm

Venue : Biological Science Auditorium IISC

Date : 22nd Sept 2022

Introduction :

The **Indian Institute of Science (IISc)** is a public, deemed, research university for higher education and research in science, engineering, design, and management. It is located in Bengaluru, in the state of Karnataka. The institute was established in 1909 with active support from Jamsetji Tata and thus is also locally known as the "Tata Institute". It is ranked among the most prestigious academic institutions in India and has the highest citation per faculty among all the universities in the world. It was granted the deemed to be university status in 1958 and the Institute of Eminence status in 2018.

Guest Profile:

- 1. Abilash Soundararajan CEO & Founder,**
PrivaSapien, Bannerghatta Road
Bangalore-76
- 2. Dr Karthik COE, IISC**
Bangalore.
- 3. IL Narasimha Rao Sr. Project Manager**
Cyber Peace Foundation
New delhi-110001

Experience at IISC:

There we had an interaction with Karthik Sir, COE of IISC, who explained about the history of IISc and took us to the main building of IISC. On the way students had enjoyed the view of beautiful green campus and saw infrastructure of IISC and also other different departments too. On the way back to the biological science auditorium we had interacted with Karthik sir about how this institution is planning to bring changes by combining medical science, research and technology. We also asked him about the opportunities of getting into research. This visit was helped us to gain a wonderful knowledge about research and technology. Then we attended the Cyber Peace Foundation talk about data privacy.

Objectives:

- To create awareness about the research institute and functioning of each department.
- To create awareness about “My Data, My Privacy”.
- To create awareness about Cyber-crimes in particular cyber bullying
- To understand how to avoid and overcome such situation and cyber laws in India.
- Encourage the students to take up Awareness Research project

Outcomes:

- Learn about different research Program held at IISc.
- Students had awareness about how to secure personal data.
- Students learn about to maintain Privacy of their data.
- Students got information about how to use social media and create awareness among public.
- Students also got a awareness about how to maintain a student’s research data during higher studies

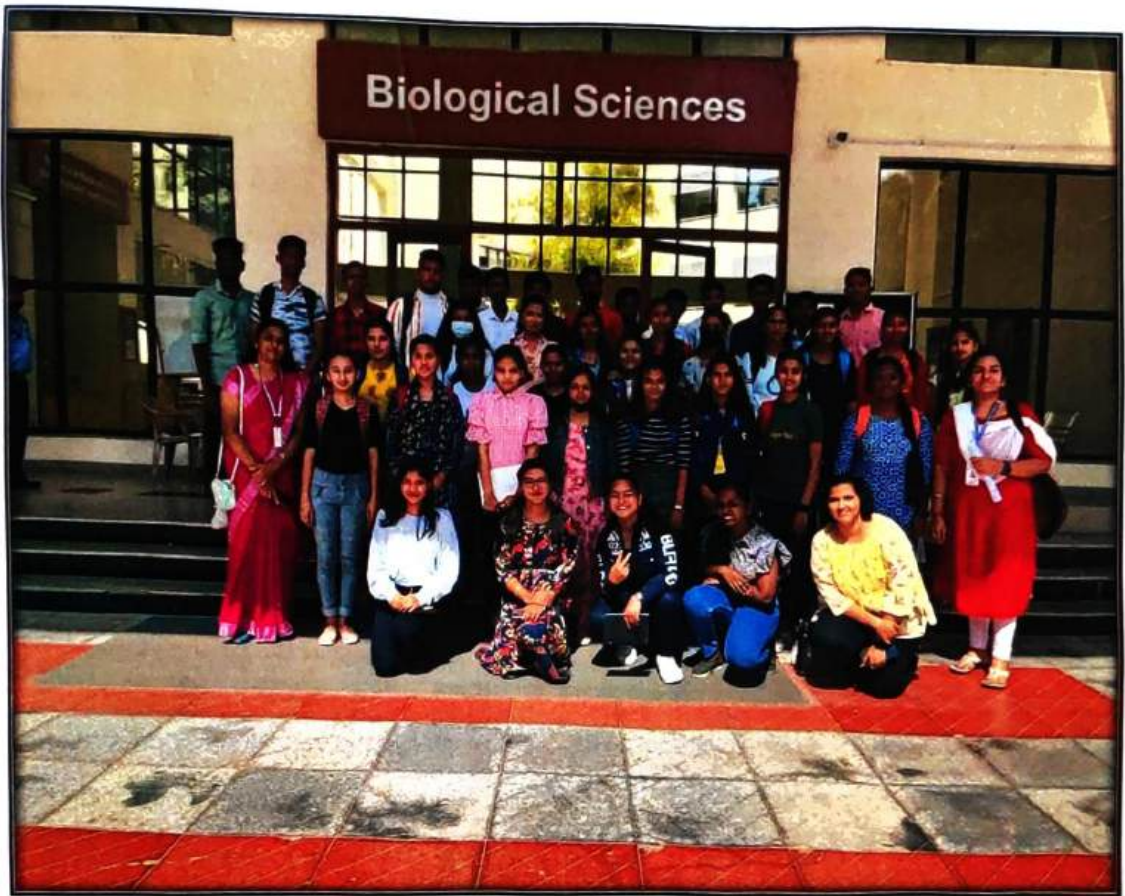

1. Feedback analysis (Enclosed)
2. Action taken report(ATR) for the feedback
 - a. As a first step, Student presented a skit on Cyber bullying in the Department assembly program on 26-9-2022.
3. Attendance sheet for the event

Expodent 2022 Visit Report

Place : Expodent 2022, Karnataka

Time : 10:30 am – 12:00 pm

Venue : Bengaluru International Exhibition Centre, Bengaluru

Date : 24th September, 2022

Introduction :

On September 24, 2022 our college had arranged a visit to an exhibition named Expodent-2022 which was held at Bengaluru International Exhibition Centre, Bengaluru. It was the 15th edition of the largest dental exhibition. The tour was very informative and fun. The students got a chance to learn about the alignment of the teeth and teeth modeling through 3D prints. The information on teeth alignment would help them in the discipline of Forensic Odontology. In the exhibition students were exposed to scanning machines which was developed using AI systems. Students witnessed several dental equipment X Ray machines, 3D scanning and Moulding machines and learnt more about teeth alignment, types of teeth moulding which was quite informative.

Objectives

- To know about the modern equipment, teeth alignment structure and the different techniques used in odontology.
- To expose the students to 3D tooth modelling.

Outcomes

- Students learnt about the new technologies invented lately in the field of odontology.
- Students even got an exposure towards the alignment of teeth and how the equipments are operated.
- Students learnt about 3D tooth modelling.

1. Feedback analysis (Enclosed)
2. Action taken report (ATR) for the feedback: The students prepared presentations and had a great exposure towards Odontology as they have Forensic Anthropology as a core subject in the coming semesters.
3. Photos(Geo-tagged photos)
4. Attendance sheet for the event.

Excellence made easy

CEREC Primemill

Speed

Smart Fast milling mode
Employment for speed and precision, the new CEREC Primemill allows the greatest strength of its construction and leads to consistent performance in virtually every height. You can use full cutting capabilities on lower than usual or standard cutting/finishing times by more than half.

Fast finishing
Increased fast grinding results for high-quality glaze without compromise in size filing.

CEREC Primemill

Convenience

PT touch interface with user guidance
Practical touch control is user-friendly, integrated with temperature and compression of touch. You will also benefit from built-in safety features. It also allows direct access to the new, high-resolution performance and other features. Select.

Integrated touch scanner
The built-in touch scanner automatically scans material trays with consistent data quality, checks and records the information, including date, user, color and milling parameters. Custom.

RFID tool reader
All CEREC universal tools are fitted with a custom-coded RFID RFID that is read by the RFID scanner, ensuring that the tool status always matches the use of a tool-based measuring. The accuracy of tools are performing in optimal form, ensuring consistent finishing productivity.

Quality

More consistency for quality
The combination of new technology, millage, stability and consistent construction contributes to your consistent and consistent performance. This leads to consistent performance and consistent results - for consistently consistent results.

More consistent results
The new CEREC Primemill consistently delivers high-quality results, ensuring a consistent and consistent result. The new CEREC Primemill consistently delivers high-quality results, ensuring a consistent and consistent result.

Designed to stand out - and fit in

The new CEREC Primemill doesn't just stand out - it fits in. The new CEREC Primemill is designed to stand out - and fit in. The new CEREC Primemill is designed to stand out - and fit in.

- The innovative LED strip indicates tool status and milling progress.
- The new slanted design enhances direct access to tools and accessories.
- All surface areas and the chamber are easy to clean.

Versatility

Multi-directional milling and grinding options
Choose from the full spectrum of milling options, including 0° and 90° and more, ensuring the best quality of your and finished ceramic.

Wide palette of materials
The Primemill is compatible with the CEREC Primemill and can mill a wide range of materials, including high-strength polymers.

GOVT. OF KARNATAKA

BTS2021

BENGALURU TECH SUMMIT

17th-19th • November 2021

DRIVING *THE* *NEXT*

Co-Host

The 23rd edition of Bengaluru Tech Summit 2020 was successfully conducted in a hybrid format. The Event was inaugurated virtually at the hands of Hon'ble Prime Minister of India, Shri. Narendra Modi and Hon'ble Prime Minister of Australia, Mr. Scott Morrison and then Hon'ble Vice President of the Swiss Confederation, H.E. Mr. Guy Parmelin.

The Global Platform For Innovation

Asia's largest Technology Event, Bengaluru Tech Summit (BTS) organized by the Department of Electronics, IT, Bt and S&T, Government of Karnataka is back in a hybrid avatar this November 17 to 19, 2021.

The swift spread of Covid -19 came as a heavy blow to the global economy, causing unprecedented disruption across industries. But with disruption, we are also witnessing a massive digital transformation across society, globally. Technology has emerged as a saviour - be it in fighting the virus, in resurrecting the crippling industries or in bringing together people in these challenging times.

During this time, Bengaluru has truly kept the world moving and emerged as the next Headquarter to the Global MNCs driving their businesses across continents. BTS 2021 with its central theme "**Driving the Next**" will witness the coming together of global tech leaders, Indian corporates and startups from IT, DeepTech and Biotech, deciphering the future, showcasing disruptive technologies, forging partnerships and alliances.

BTS 2021, in its 24th edition, will give global audiences access to the best innovations, new products and cutting-edge ideas for building a collaborative, global tech community. BTS has become the place of convergence for the leading cross-sector tech companies to startups, technocrats to young innovators, policymakers to investors, researchers to academia, facilitating dialogue and collaborations.

Be there and create your own future!

BTS2021 CONFERENCE

Bengaluru Tech Summit 2021, India's biggest technology summit for 20+ years, will deliver another cutting-edge agenda in IT, Biotech and DeepTech that will benefit industry leaders, technocrats, young innovators, investors, R&D professionals, academia and policy makers.

With '**Driving the Next**' as the central theme, be a part of live panel discussions, fireside chats, plenaries, keynotes and presentations from top-notch experts, without having to travel. With over 75 sessions on the latest game-defining technologies, place to network with over 20000 Business Delegates, there is something special for everyone at BTS2021!

Exhibition

Exhibition@BTS2021 is the most exciting place. Showcase your technologies, solutions, products, services & innovations to gain ultimate business exposure. BTS Exhibition will facilitate networking through virtual booths, video calls, live chats, B2B meetings with a wide spectrum of attendees. The experience will be nothing less than a physical event and will have more life span to engage with your customers globally enabling networking at finger tips.

The exhibition will have focused pavilions for various industry verticals and ideal ground for bringing together products and services from diverse industries to a common market place, creating avenues for fruitful collaborations and international trade.

Exhibition Pavilions

- IT • Biotech
- Global Innovation Alliance (Country Partners)
- India Innovation Alliance (State Partners)
- Start-Ups & MSMEs • R&D Labs
- BFSI • Govt. of Karnataka Departments
- Universities • Consumer Electronics & Luxury Brands

Startup Pavilion

FOR THE GAME CHANGERS

The Startup Pavilion will be a star attraction with over 200 startups vying for attention of investors and industry towards their innovative products & services.

Startup Pavilion will consist of Innovators, Elevate Winners, Incubators and International innovators. Startups can exhibit at a special rate and get more benefit from the opportunity.

Startup Pavilion provides the perfect opportunity for entrepreneurs to interact with angel investors, venture capitalists, mentors and accelerators and win a chance to showcase your innovative ideas to a global audience.

Special Programmes

India-US Tech Conclave

India-US Tech Conclave is aimed at bringing leaders from key industry verticals, Research and Governments to deepen & expand the collaboration between Indian & US Tech Companies and Innovation Clusters. The Conclave will be curated in association with USIBC.

Global Innovation Alliance Zone (GIA)

Karnataka has forged partnerships with leading tech nations of the world aimed at co-creation with focus on Technology sharing, co-operation on Skilling, Trade Promotion, Startup/Soft Landing and more. 16 GIA Partner countries will participate in BTS 2021 along with their delegations consisting of industry, academia, R&D in exhibition, B2B meetings, and will conduct 50 minute session in the conference.

India Innovation Alliance Zone (IIA)

There are many innovation hotspots nurtured by various State Governments, National Research Institutes and Universities. IIA at BTS aims to explore mutual areas of cooperation, collaboration as well as showcase them to the world.

STPI-IT Export Awards

These are the most prestigious awards instituted two decades back in the country by STPI. They are presented to the IT, ITes and other sectors companies recognizing their export performance and contribution

to the sector. The Awards will have at least 10 categories and a jury panel will consist of experts from STPI, Govt. of Karnataka, industry and Academia.

Bengaluru Impact Awards

The Bengaluru Impact Awards recognize startups from Karnataka who are building innovative products and solutions which have gone on to achieve the status of unicorn. This year too we are proud to present the unicorns to the world.

Smart Bio Awards

These are instituted with the purpose of recognizing biotechnology firms that have shown dynamic leadership, exciting technologies, and stand-out contribution in their chosen fields in biotech like Biopharma, Bio services, Agribiotech, Med-tech etc. Association of Biotechnology Led Enterprises (ABLE) has been entrusted to lead this activity.

R&D (Lab to Market)

Lab to Market is a first-of-its-kind platform which encourages premier research institutes of India to accelerate the Lab-to-Market journey of their potential innovations by way of exhibit and conduct meetings with industry, startups & investors

National Rural IT Quiz

The Rural IT Quiz is one of the Flagship Programmes conducted for over two decades in association with TCS . It has helped enhance IT awareness amongst students at the grassroots level, keeping them abreast of the latest developments in the world of Information Technology.

Bio Quiz

This is India's largest State Level Quiz on Biotechnology. The objective of the Quiz is to create awareness about the fascinating world of Biotechnology, encourage students to delve deep into the subject in a holistic manner and showcase to the world the talent of Karnataka in this significant field of Life Science.

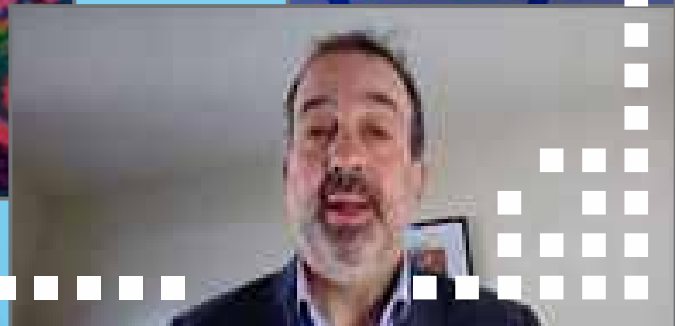

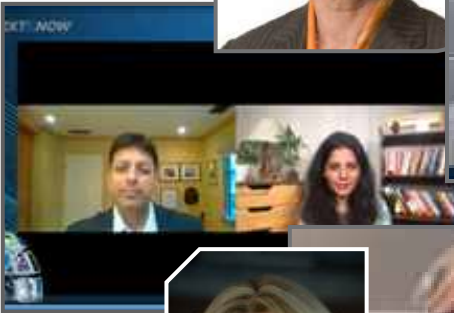

Poster - Walkway of Discovery

Popular amongst Young Researchers, Poster Session will showcase innovative ideas, outstanding research, ground-breaking studies undertaken by young minds from Research Institutes and Universities that have the potential to make a significant impact in the field of Life Sciences & Biotechnology.

B2B Meetings

The partnering tool helps delegates to schedule targeted meetings using One-on-One partnering application and set up business meetings getting the best out of this global event.

SPONSORSHIP

As BTS goes virtual, sponsorship is the most effective option to reach out to your target group. BTS has specially designed sponsorship opportunities this year which can meet your corporate goals as well as achieve targeted communication to meet your business objectives.

BTS 2021 will be running high decibel campaigns through Electronic, Digital, Social Media, Print, Outdoor Media as well as through Trade Magazines/ Portals, Industry Association websites and so on. Various categories of Sponsorships are designed to increase your organization's Brand recognition and assist you to achieve your Business and Corporate goals. Take a look and pick the option that suits you best or just reach out to us and together we can curate a sponsorship option specially for you.

Sponsorship Opportunities

- Event Sponsor • Start-Up Partner • Platinum Sponsor • Diamond Sponsor • Gold Sponsor • Silver Sponsor • Global Innovation Alliance (GIA) Partner • India Innovation Alliance (IIA) Partner • Industry Vertical Sponsor • Session Sponsor • Digital Briefcase Sponsor

SOUNDARYA EDUCATIONAL TRUST (R)
SOUNDARYA INSTITUTE OF MANAGEMENT & SCIENCE
Soundaryanagar, Sidedahalli, Bangalore - 73.

REPORT ON INDUSTRIAL TRAINING AT CENTRAL SILK TECHNOLOGICAL RESEARCH

Date of the training - 3.7.2023 to 7.7.2023

Number of students attended – 22

Venue -Central Silk Technological Research Institute, Madivala

Faculty Incharge- 1. Dr.S.Shreemathi Giri, Prof. & HOD, Department of science

2. Prof. Vidya D C

3. Prof. Kavya C

Primary objective of the program:

To make the students to understand the industrial applications and exposure to industrial application of science .

Report of the Programme

The students of B.Sc. from Soundarya institute of management and science attended a 5 days(3.7.2023 to 7.7.2023) Hands on training in CENTRAL SILK BOARD TECHNOLOGICAL RESEARCH INSTITUTE IN BANGALORE. Under the guidance of HOD of B.Sc. department Dr. Shreemathi Giri and faculties of B.Sc. Department.

The session started with inaugural function. , Director of CST.RI Mrs. Radha, Ms Shikha Yadhav, Dr. NAVEEN V PADAKI , SCIENTIST 'D',

Mr. ITAGI, SCIENTIST 'D' . addressed the importance of training session.

Key take away of the programme

Students understood about the

- 1) Status of the Indian silk industry 2) Water quality for silk wet processing,
- 3) Silk degumming 4) Bleaching of silk 5)Dyeing of silk
- 6) Silk printing 7) Silk finishing 8) Quality control in silk processing
- 9) Chemicals used in silk 10.Application of science to silk industry

Expected outcomes :

Students will be involved in the various activities of silk processing technique. Students will know the opportunities for higher studies and Research in silk industry

Actual outcomes

The students learnt various stages of processing involved in siik manufacturing along with practical knowledge.

The interaction of our students with the scientists in their training period was highly appreciated. Few of them expressed to start their own units of silk reeling.

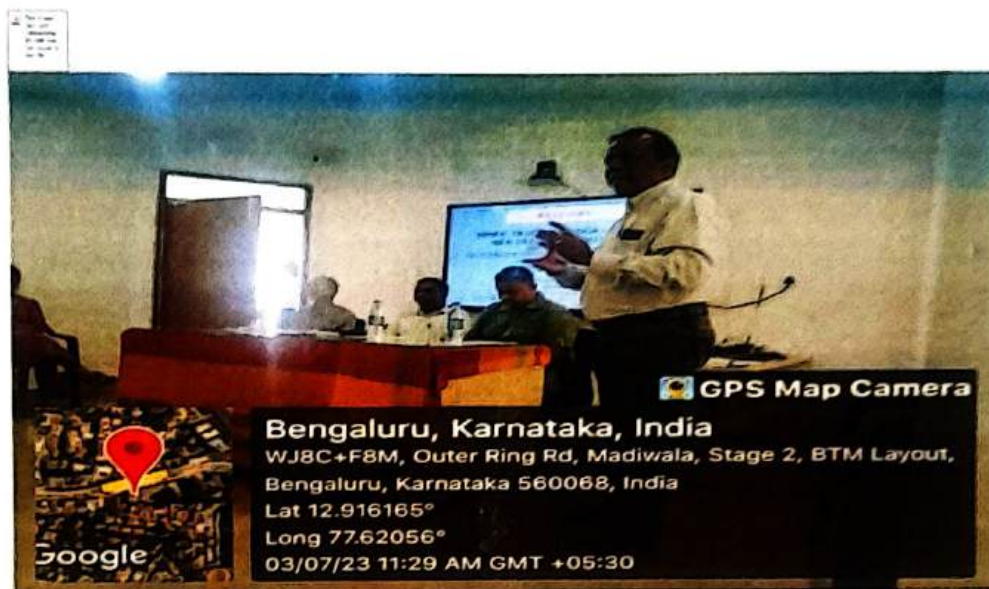

SOUNDARYA EDUCATIONAL TRUST (R)
SOUNDARYA INSTITUTE OF MANAGEMENT & SCIENCE
Soundaryanagar, Sidedahalli, Bangalore - 73.

Report of the Programme

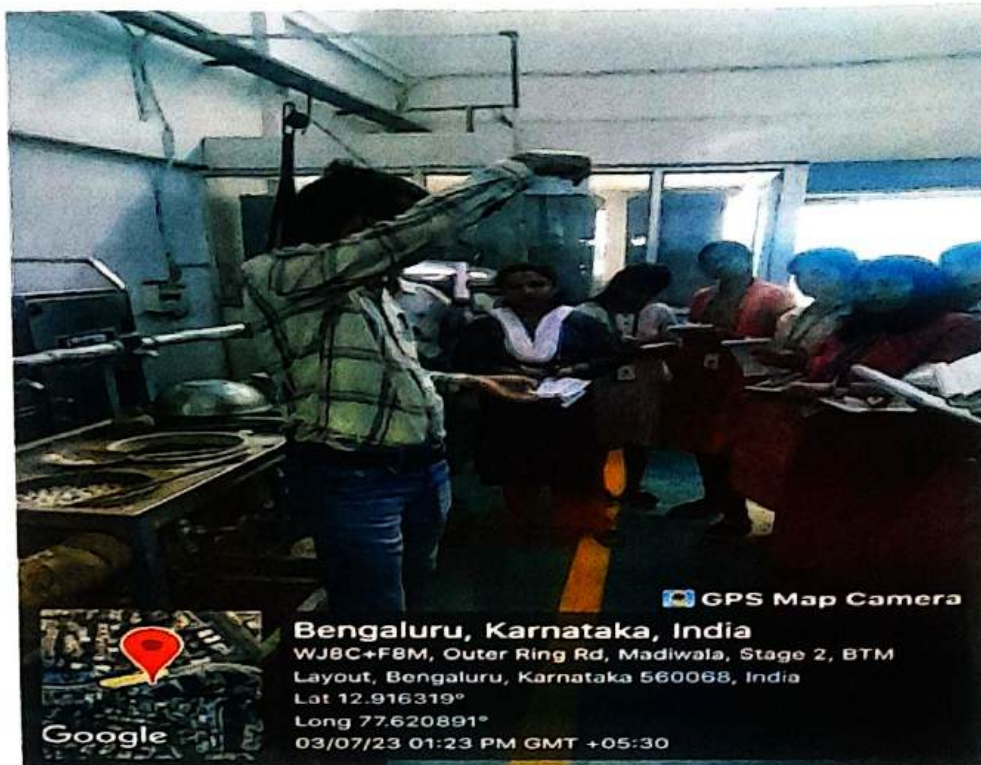

DAY 1:

On the first day we were addressed by the research scientist then had an introduction classes on silk by Dr.NAVEEN V PADAKI and Mr. ITAGI which was continued by visit to various sections of silk manufacturing process viz. reeling, weaving, and wet processing sections. They explained about different types of the cocoons available in India with silk fabrics made by different types cocoons.

DAY 2:

Then on the second day we had a quick theory classes then attended hands on training about the hardness of water, alkalinity and acidic test with the importance of each test. (photo to add)

DAY 3 :

On third day we had theory classes followed by training on degumming and bleaching process of silk using various reagents.

DAY 4 :

On fourth day we dyed the silk By taking proper quantity of the chemicals which will be required to dye the given fabric under the guidance of Mr. LOKESH and Mrs. NAGARATHNA practical incharge.

DAY 5 :

We went through the training on printing of silk along with dyeing and steaming of the silk. At last all the students had a valedictory ceremony and students share their experience about training, where the students were awarded with the certificates.

Overall it was a much needed exposure for students towards the silk and it's manufacturing process. It was a informative training given for the students.

Expodent 2022 Visit Report

Place : Expodent 2022, Karnataka

Time : 10:30 am – 12:00 pm

Venue : Bengaluru International Exhibition Centre, Bengaluru

Date : 24nd September, 2022

Introduction :

On September 24, 2022 our college had arranged a visit to an exhibition named Expodent-2022 which was held at Bengaluru International Exhibition Centre, Bengaluru. It was the 15th edition of the largest dental exhibition. The tour was very informative and fun. The students got a chance to learn about the alignment of the teeth and teeth modeling through 3D prints. The information on teeth alignment would help them in the discipline of Forensic Odontology. In the exhibition students were exposed to scanning machines which was developed using AI systems. Students witnessed several dental equipment X Ray machines, 3D scanning and Moulding machines and learnt more about teeth alignment, types of teeth moulding which was quite informative.

Objectives

- To know about the modern equipment, teeth alignment structure and the different techniques used in odontology.
- To expose the students to 3D tooth modelling.

Outcomes

- Students learnt about the new technologies invented lately in the field of odontology.
- Students even got an exposure towards the alignment of teeth and how the equipments are operated.
- Students learnt about 3D tooth modelling.

1. Feedback analysis (Enclosed)
2. Action taken report (ATR) for the feedback: The students prepared presentations and had a great exposure towards Odontology as they have Forensic Anthropology as a core subject in the coming semesters.
3. Photos(Geo-tagged photos)
4. Attendance sheet for the event.

Excellence made easy

CEREC Primemill

Speed

Super fast milling results. Optimized for speed and precision, the new CEREC Primemill delivers the proven strength of its predecessor and offers exceptional performance in various wax designs. You can now mill ceramic impressions in Super Fast mode to ensure maximum milling performance with these wax blocks.

Fast milling
 Increased feed grinding results for high-quality glass ceramic components in less time.

Convenience

IT touch interface with user guidance
 The new touch interface provides integrated with operation and programs in more than 100 steps. A guide with 100-step user knowledge in the touch screen displays the integrated, interactive procedure and other useful facts.

Integrated block scanner
 The time-saving new built-in automatic scanner allows you to scan wax blocks directly, which also records the information regarding hole size and axial misalignment during WPC seal work.

AI 3DCC (artificial) teeth
 All CEREC Primemill units are fitted with a custom-sized WPC that is held by the WPC scanner. This allows the tool holder to move, ensuring the ease of a hand-held operation. The precision of tool performance is optimal thanks to the fully automatic adjustment.

Quality

More consistency for quality
 The new CEREC Primemill software feature and the new design of the milling unit allow for a more consistent and reliable milling process. The results are consistent and reliable, even when milling wax blocks.

More 3D data milling time
 The new CEREC Primemill software allows you to mill more data in less time. The new 3D data milling mode allows you to mill more data in less time.

Designed to stand out - and fit in

The new CEREC Primemill 3000 is a compact machine designed to fit in a dental office. The perfect match - and the clear choice for a complete dental practice.

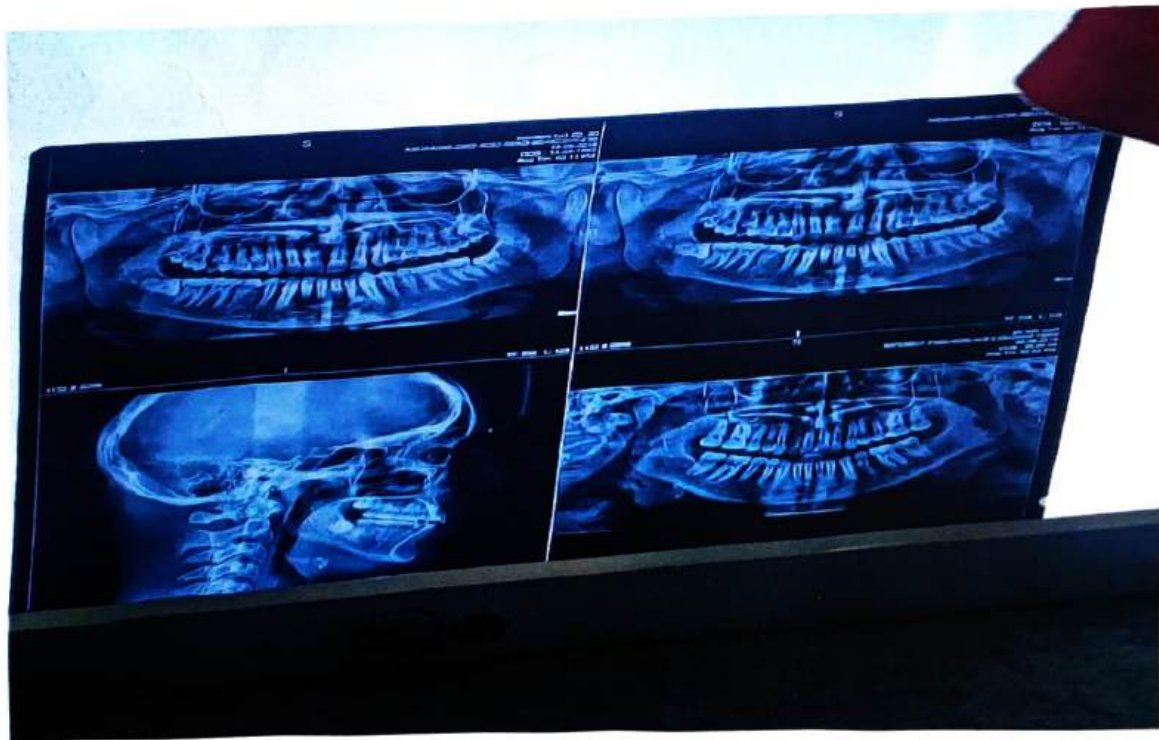

- The innovative LED single toolless tool holder and milling pressure
- The new design allows anyone without access to files and accessories
- All surface angles and the chamber are easy to clean

Versatility

Maximum milling and grinding options
 Choose from the full spectrum of milling options. The new 3D data milling mode allows you to mill grinding of wax and PEEK ceramic.

More precision of results
 The new 3D data milling mode allows you to mill more data in less time. The new 3D data milling mode allows you to mill more data in less time.

REPORT ON

INDUSTRIAL VISIT TO INDIAN INSTITUTE OF SCIENCE(IISc)

Date - 27.10.2023

Number of students attended – 38

Venue - SOUNDARYA INSTITUTES OF MANAGEMENT & SCIENCE

Faculty Incharge- 1. Dr.N.Giri , Associate Director, R & D

Dr. S Shreemathi Giri, Prof. & HOD, Department of Science

2. Asst. Prof. Vidya D C

Primary objective of the program:

The scope of the program is to create awareness research of higher education institutions and applications of the Science & Technology in various fields.

Objectives of the program:

The program is to provide a platforms for the interaction of students with Scientists involved in Higher energetic physics lab, XRD, Chromatography Techniques, Centre of excellence in Nano Science.

Key takeaways:

1. Students understood the applications of Science in industries.
2. Knowledge sharing among students. Students will get the knowledge of various instruments used in analysing samples at molecular level.

Expected Outcomes:

1. Describe several areas of Science.
2. To make the students to look outwards and learn beyond the syllabus.
3. Scientific temper will be developed in Students.
4. Students will be able to understand the Realms of nano science, physics, chemical science.

Report of the Programme

Department of Bachelor of Science (BSc) of SIMS visited

IISc (Indian institute of science) with 38 students from Science Department.

Students visited to Centre for high energy Physics department where explanation was given by the technical team on followed by Chemistry department where the construction and working of Nuclear magnetic Resonance spectrometer was explained. Students also learnt about sample collection, instrumentation, data analysis for Atomic Force Microscope, Chromatography etc.,

Then the students visited Centre of excellence of Nano Science Department. Students were known about the importance of the different kinds of spectroscopy along with its practical applications of science in all fields.

All the students were happy and came out with the fruitful knowledge gained by different departments of Science along with the practical knowledge and students were interacted with Scientists by asking questions and cleared their doubts. This program was excellent for the students to expose them towards the research work in future and to inculcate their research capability.

Internship Offer Letter

February 15th, 2019

Dear Archana Gowda,

We would like to congratulate you on being selected for Technical Recruiter position with **Benchire** recruitment team as an Intern. All of us at Benchire are excited that you will be part of our team.

Your date of joining will be February 21st, 2019. Your internship will be valid for 5 months from the date of joining. Your completion letter will be provided to you at the end of your internship. This internship is viewed as being an educational opportunity for you while you are pursuing your education from (Soundarya Institute of Management and Science),

As discussed during the interview process, **your stipend amount will be INR 5,000/- (Rupees Five Thousand Only)** per month. Please confirm your acceptance of this offer, by signing and returning a scanned copy of this letter to us.

Again, congratulations and we look forward to working with you. For any further questions or concerns please feel free to contact us at hr@benchire.com.

Yours sincerely,

For Benchire

Event Report for the academic Year 2022 - 23

- **Title:** Drone making project
- **Participant:** Asst.prof Yatish and 3rd year BCA students
- **Date:** 27/11/2023 to 28/11/2023
- **Time:** Two entire days
- **Venue:** ‘Tech summit 2k23’ Convention

Objectives:

1. To gain hands-on experience in drone design and assembly.
2. The benefits for students include the opportunity to learn about cutting-edge technology, gain industry experience, and network with potential employers.

Brief Event Report:

The IoT Exhibition was held in November 2022 in Bangalore at the KTPO convention center at Whitefield. Themed “Harnessing the Power of IoT for a Connected World”, the exhibition showcased the latest IoT advancements and drew visitors from around the globe.

Some of the highlights of the exhibition included:

- a dedicated IoT start-up zone
- an IoT application zone
- an IoT product zone
- an IoT solutions zone

The exhibition was a great platform for visitors to learn about the latest IoT developments and to network with industry leaders. With the rapid growth of IoT, the exhibition is expected to become an annual event.

Outcomes:

1. The IoT shows for students demonstrated the potential for technology to have a positive impact on people's lives.
2. Students soon will have the opportunity to use the latest in technology outside of the classroom.
3. Students were able to see how various devices could be used to make their everyday lives easier and more efficient.

5. Feedback from the students

Feedback on IOT show's workshop at Whitefield.

On 24-November-2022 was visited to KPTO Convention Centre Bangalore which is based on IOT show. There were 10,000+ delegates, 340 IOT brands, 120 speakers and 12 conference and workshop tracks.

This workshop was much useful and I gained some knowledge about some High Power Applications like

Power device choices, Thermal management Basics,

E-mobility, IOT and open source: Re-purposing

hardware and Improving Interoperability etc.

- * we should give more importance to cost of program
- * They had given the explanation about Pin mapping

of ARM Cortex - M4 based XENON + Nano CPU module

with LTE + GPS :- In this we learnt about how to bring IOT capability to measure the ceramic layer coating thickness in real time and send to their back end IOT Dashboard applications.

- * They had given the explanation about the Polygon Aim; It means how to connect them and projects and improve application development

Process with a single, unified solution for requirements, coding and testing.

- * So this day was much interesting, I am really enjoyed and also I had got some idea about IOT.
- * And I am willing to plan about my projects that how can I make Products smarter.
- * I had got the some idea about
 - Embedded Systems developments.
 - IOT Connected Machines
 - cloud Based Applications
 - Smart Product Development.

- * So I am thankful to our Yash Sir who is giving more support and making us to understand what is happening in the world.

- * Also I am thankful to Sir who had given opportunity to visit for a [workshop] event, and make me to understand about the IOT show which was held at KPTO.

- * So after visiting this show I had got some idea and knowledge about this workshop.

- * So I will work regardingly about my plan and also I will discuss with our team to make our work best and also we will make

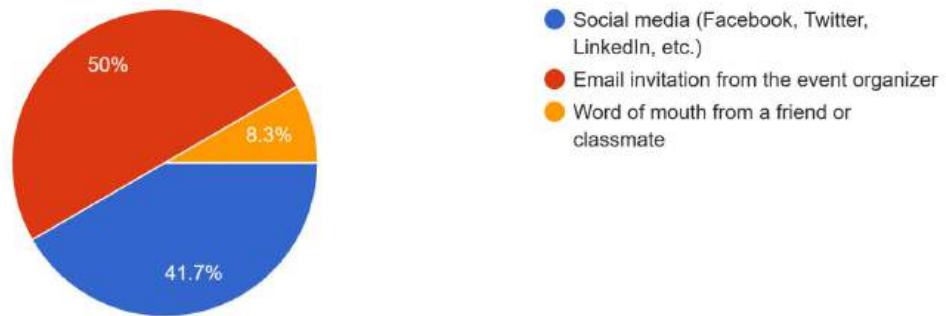

use of this Instra club, to enhance our knowledge.

Thank You.

ATR Report:

Date: 24/11/2022

Purpose: The purpose of this report is to provide an update on the actions taken based on the recommendations from the Tech Summit visit by college students to the venue that was held on 24/11/2022.

Participants: 30 Students

Key Recommendations:

During the Tech Summit visit, the following observations were made by the students:

Recommendation 1: Provided more opportunities for hands-on demos and interaction with exhibitors.

Recommendation 2: There were more breakout sessions to cover a wider range of topics and interests.

Recommendation 3: The number of networking opportunities with industry professionals and potential employers were more.

Action Taken:

Based on the key takeaways from the Tech Summit, the students have taken the following actions:

Action 1: Several students have enrolled in online courses and workshops to deepen their understanding of emerging technologies, including AI, blockchain, and IoT.

Action 2: Some students have started working on personal projects to apply the skills and knowledge gained from the Tech Summit, such as developing a mobile app or creating a chatbot.

Action 3: A group of students has formed a technology club on campus to share their knowledge and skills with other students and organize events and workshops related to technology.

Action 4: Many students have reached out to the industry professionals they met at the Tech Summit to explore potential career opportunities, internships, or mentorship programs.

Next Steps:

The following are the next steps to be taken:

Next Step 1: The Trinetra club on campus will organize workshops and events to share the knowledge and skills gained from the Tech Summit with other students and promote a culture of innovation and creativity.

Next Step 2: The students will continue to explore online courses, workshops, and hackathons to deepen their understanding of emerging technologies and gain practical skills.

Next Step 3: The students will work on personal projects and participate in competitions and

challenges to showcase their skills and creativity.

Next Step 4: The students will continue to network with industry professionals and explore potential career opportunities and mentorship programs.

Conclusion:

Attending the Tech Summit has inspired and motivated the students to take action and pursue their passion for technology. The students have taken various actions to deepen their understanding of emerging technologies, apply their skills and knowledge, and connect with industry professionals. The university will continue to support and encourage the students in their pursuit of knowledge and skills in technology.

EVENT REPORT ON –EXTENSION ACTIVITY

BY- B.A. STUDENTS

As it is culture of SIMS in Department of Political Science to inculcate values of life among the students community, we are organized community development activities and as extension activity under Democratic club to the higher primary School students of Totadaguddadahalli Government School by our B.A degree students. Our students happily volunteered to visit the Govt School and make many preparation and execute their planning and ideas through their presentation. Our B.A student interact and activity based session taken to them. The higher primary students enjoyed and actively participated each and every event with the same energy. Over all this session was to them as a thought provoking and very useful to inculcate their daily life. The session is completely based on – Communication skills, Basic Drawing and Sketching skills, value education and psychological based activities.

Objectives:

- To create awareness among higher primary students value based thought process
- To know the basic drawing skills among the lower children
- To apply the communication skill among the students in their future
- To create a strong mindset towards for children community for their personality development

Overall the extension activity enjoyed by our students by create awareness in different aspect by doing practical oriented session as well interactive session too.

DEPARTMENT OF SCIENCE

REPORT ON ROBOTICS EXHIBITION

Date of Visit: 22/09/2022

Place: Mysore (Nexus City Mall)

Number of Students: 30

Faculty Incharge: Mr. Chetan H N

On 03rd July we had visited Nexus Mall at Mysore to witness the tallest humanoid robot known as “BHIMA” which was made manufactured and patent in India. It was able to perform various activities. It was programmed by Holo Suit. This type of Robot are useful in the field of education, military and entertainment. Bhima was about 7.7 Ft tall. We were able to interact with it. Bhima greeted us by saying “Hi” it is used to answer various questions. The Robotics team showed us a small robot which was 1 – 2Ft tall. It was performing actions of given command and we also asked questions for the robotic team concerning about future of the robot in India and the team answered in a convincing manner.

Planting trees is the first step towards mitigating climate change hazards, but what about monitoring them? Now, the **'Soundarya Green Initiative'** app can help you monitor tree plantations without even visiting the sites.

The pilot project is being run to monitor 5800 plants distributed among Soundarians and has been launched by Soundarya Group of Institutions – NSS unit on 5th June 2024. The NSS unit students will be working on this project for next three years by the time the trees reach the survival stage.

The NSS unit aims to plant and monitor 1 LAKH Plant by 2034.

Let us hold hands towards Green Initiative

Steps to be Followed

Student will receive Plant Sampling from School

Steps to be Followed

Student will plant the sampling at home along with his/her parent

Steps to be Followed

Parent will receive a QR code from School

<https://forms.gle/nDB3WBGuf4RTztg8>

Steps to be Followed

After Scanning QR code, Parent will register in our App by providing details

CPF CLUB EVENT

ETHICAL HACKING WORKSHOP

TITLE: ETHICAL HACKING WORKSHOP

PARTICIPANTS: BCA STUDENTS

TIME : 10AM

VENUE : BASEMENT LAB

DATE : 28TH JANUARY 2023

EVENT COORDINATOR: MEGHA
POTDAR

INTRODUCTION :

Ethical hacking involves an authorized attempt to gain unauthorized access to a computer system, application, or data. Carrying out an ethical hack involves duplicating strategies and actions of malicious attackers. This practice helps to identify security vulnerabilities which can then be resolved before a malicious attacker has the opportunity to exploit them.

RESOURCE PERSON:

VAMSIDHAR J

CEO, CYFER CODE

Founder and CEO of CYFER CODE PRIVATE LIMITED, a global provider for cybersecurity consultancy and solutions. He has worked in Deloitte, E-Merchant Digital, Cachet Software Solutions, CISCO. He has audited 1000+ applications in the areas of Banking, Finance, healthcare, education, e-commerce, and others. He offered bug bounties on various websites. He offered hall of fame for security researchers in various websites conducted external and internal penetration tests on servers of various national & international clients. He conducted vulnerability assessment of multiple platforms and devices.

OBJECTIVES :

- To motivate/encourage students to learn about ethical hacking.
- To discover an upcoming techniques related to hacking.
- To create awareness about hacking.

OUTCOMES :

- Gained knowledge on ethical hacking.
- Understood how to secure the systems and data from threats and attacks

Expodent 2022 Visit Report

Place : Expodent 2022, Karnataka

Time : 10:30 am – 12:00 pm

Venue : Bengaluru International Exhibition Centre, Bengaluru

Date : 24nd September, 2022

Introduction :

On September 24, 2022 our college had arranged a visit to an exhibition named Expodent-2022 which was held at Bengaluru International Exhibition Centre, Bengaluru. It was the 15th edition of the largest dental exhibition. The tour was very informative and fun. The students got a chance to learn about the alignment of the teeth and teeth modeling through 3D prints. The information on teeth alignment would help them in the discipline of Forensic Odontology. In the exhibition students were exposed to scanning machines which was developed using AI systems. Students witnessed several dental equipment X Ray machines, 3D scanning and Moulding machines and learnt more about teeth alignment, types of teeth moulding which was quite informative.

Objectives

- To know about the modern equipment, teeth alignment structure and the different techniques used in odontology.
- To expose the students to 3D tooth modelling.

Outcomes

- Students learnt about the new technologies invented lately in the field of odontology.
- Students even got an exposure towards the alignment of teeth and how the equipments are operated.
- Students learnt about 3D tooth modelling.

1. Feedback analysis (Enclosed)
2. Action taken report (ATR) for the feedback: The students prepared presentations and had a great exposure towards Odontology as they have Forensic Anthropology as a core subject in the coming semesters.
3. Photos(Geo-tagged photos)
4. Attendance sheet for the event.

Excellence made easy

CEREC Primemill

Speed

Super fast milling results. Optimized for speed and precision, the new CEREC Primemill delivers the proven strength of its predecessor and offers exceptional performance in various mill designs. You can take full ceramic impressions or Super Fast prints to assure 3 minutes milling performance with the new Ceramill.

Fast milling

Advanced tool grinding results in high quality glass ceramic components in less time.

Convenience

IT touch interface with user guidance. The new touch interface provides integrated with navigation and programs in more than 100 languages. The new touch interface offers intuitive navigation and offers the user a more efficient workflow.

Integrated block scanner

The time-saving new built-in automatic scanner allows you to scan the entire block in one step and receive the information regarding hole size and axial misalignment before milling.

WiFi and USB

All CEREC Primemill units are fitted with a secure WiFi and USB that is ready to be used by the IT department. You can also use the USB to transfer the data of a finished milling. The automatic tool change is performed in seconds, allowing for a high level of productivity.

Quality

More consistency for quality. The new CEREC Primemill features a new design and a new milling unit that allows for a more consistent and accurate milling process. The new design allows for a more consistent and accurate milling process.

More consistent milling

The new CEREC Primemill features a new design and a new milling unit that allows for a more consistent and accurate milling process. The new design allows for a more consistent and accurate milling process.

Designed to stand out - and fit in

The new CEREC Primemill is a compact, space-saving unit that fits perfectly into your dental practice. The new design allows for a more consistent and accurate milling process.

- The innovative LED single millstone unit offers fast milling precision.
- The new design allows for a more consistent and accurate milling process.
- All surface angles and the chamber are easy to clean.

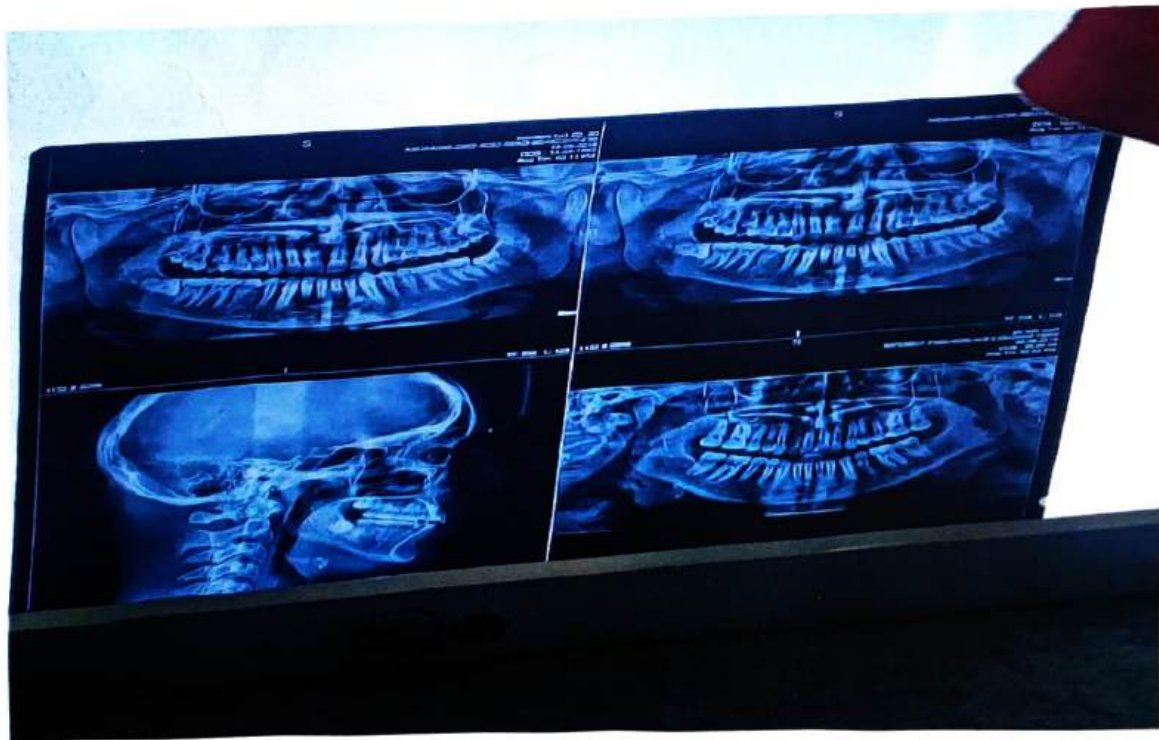

Versatility

Maximum milling and grinding options. Choose from the full spectrum of milling options. The new CEREC Primemill offers a wide range of milling options for all your dental needs.

More precision of milling

The new CEREC Primemill offers a wide range of milling options for all your dental needs. The new design allows for a more consistent and accurate milling process.

Event Report

Name of the Department: Computer Science

Date: 21/07/2022 and 22/7/2022

Name of the Event : Yuvavignantantra 2022 – Youth Confluence

Event Coordinator/s : Rekha C, N B Shigihalli and Sheela D V

Student Coordinator : Durga Prasad and Rashmi

Objectives:

1. To prepare youth for access to technology and information and equip with skills, methods and tools.
2. To face challenges and opportunities in building partnership in science, technology and innovations.
3. To build interface with humanity in the role of youth to accelerate SDG adoption.

BRIEF EVENT REPORT:-

As a part of Azadi ka Amrit Mahotsav department of computer science and pure science with IQAC initiated YUVA VIGNAN TANTRA 2022, a youth confluence with the theme role of youth in advancement and adoption of science and technology to meet Sustainable Development Goal on July 21st and 22nd 2022. A panel discussion was conducted on 21-7-2022 with the renowned guests like Dr. Shrishail Angadi, Mr. Mahesh Narayan, Dr. Muralidhara B L, Mr. Vishwas Bopanna, Dr. Parameshachari B D and Mr. Anveshi Gutta. The panel discussion was on the topic advancements and adoption of science and technology to meet SDG. The event continued on 22-7-2022 with several competitions like article writing, Animation video, Ideathon and Fireband talk. Each event had many participants from both PU and UG colleges in hybrid mode. All the events had eminent jury members Dr. Sundaresh Biligi, Dr. R. M. Sudhakar, Dr. Pradeep Desai, Mr. Anveshi Gutta and Mr. Antony peter.

OUTCOME:-

The Event had participants from more than ten colleges. Each event was conducted in two different modes for PU and UG students. Students were able to write an article on recent advancement in science and technology. The e-poster were designed to show the latest adoption in SDG with respect to science and technology. Students came up with creative ideas for Ideathon and finally the fireband talk was another event where student showed their remarkable performance.

Prototypes :

- Team of 2 students can speak on ANY ONE topic listed above
- 5 min Oral Presentation
- 2 min Q & A
- 3 min remarks from Judges.

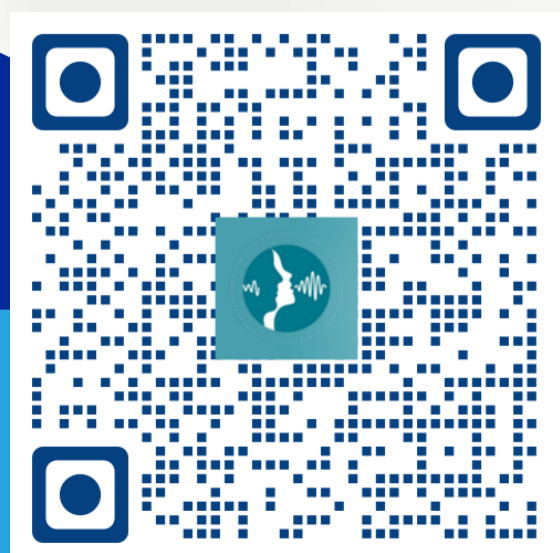

Faculty co-ordinator:
Prof. Chethan - 70905 68626

Student co-ordinator:
Mahita - +91 6366 145 343

Registration :

Registration Fee : Rs. 100/- per team

<https://forms.gle/vBwRgE6yWkAzkndH9>

Article writing (should be submitted on or before 15-07-2022)

Topic :

- Role of youth in enhancing the nexus of science, technology, and society
- What challenges and solutions do youth face in building partnerships in science, technology, and innovation efforts?
- ANY OTHER TOPIC ALIGN WITH THE THEME :
ROLE OF YOUTH IN DEVELOPING SCIENCE & TECHNOLOGY

Prototypes :

- Team of 2 students can prepare an article on any above topic
- Graphs, images, statistical reports can be included in the article
- Article should not exceed 2 pages (A4 size max. 1000 words)
- Font : Times New Roman Size: 12 Align : 2-Column
- Front sheet should include Title, Author name, College name, Mentor name
- Last sheet should include Bibliography
- Article should be uploaded in the Google drive
- Presentation of Article is on 22-7-2022
[11.00am to 12.00pm]
- Best 5 articles will be awarded on 22-7-2022

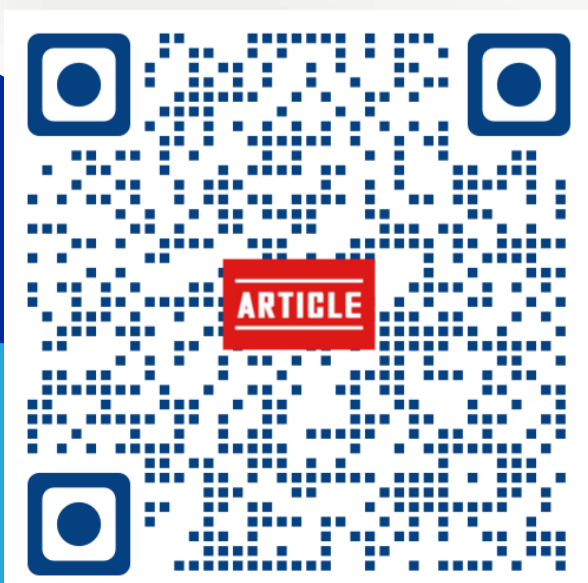

ARTICLE UPLOAD

Registration :

Registration Fee : Rs. 100/- per team

<https://forms.gle/EPHEdzggLGUdB9sw7>

Faculty co-ordinator:
Prof Sushma :

Problem Statement : [Garbage Disposal]

- We all know that the waste from industries and construction constitutes a significant part of our GDP. If it was properly disposed or recycled, then we can increase our GDP by some extent. The estimation of this waste economy is an emerging area in environmental economics.
- There is also a social angle to this problem. Most of the dumping of the industrial waste happens near the habitation of the lower income class. This poses major health issues among them.
- How can we implement current technology to dispose industrial waste as well as support national GDP .

Prototypes :

- Team of 3 students can participate
- Prepare a PPT and present the sustainable and scalable solutions to problem statement
- The PPT should include
 - Slide -1 : Project Title, College Name, Team details
 - Slide-2: IDEA / Approach
 - Slide-3 : Technology Stack and Use cases
 - Slide-4 : Block Diagram
 - Slide-5 : SDG Analysis
 - Slide-6 : Bibliography
- 5 min Presentation
- 3 min Judges remark
- 2 min Q & A

Faculty co-ordinator:
