### **Introduction:**

Amazon Web Services (AWS) is **the world's most comprehensive and broadly adopted cloud platform**, offering over 200 fully featured services from data centres globally.

AWS enables you to select the **operating system, programming language, web application platform, database, and other services you need**. With AWS, you receive a virtual environment that lets you load the software and services your application requires.

Amazon Web Services (AWS) is a **comprehensive cloud computing platform that includes infrastructure as a service (IaaS) and platform as a service (PaaS) offerings**. AWS services offer scalable solutions for compute, storage, databases, analytics, and more.

- Private Clouds. A private cloud is a type of cloud computing environment that provides IT infrastructure services to a particular user or organization. ...
- Public Clouds. ...
- Hybrid Clouds. ...
- Multi-Clouds.

AWS managed policies **provide permissions to help you get started and are available in all AWS accounts**. Then, reduce permissions further by defining customer managed policies specific to your use cases. You can create and manage policies and roles in the IAM console, or via AWS APIs or the AWS CLI.

## **Guest Profile:**

Name: VARUN

Current Position: Software Developer

Company Name: HP

Years of Experience: 3 years

## **Objectives:**

AWS provides a massive global cloud infrastructure that allows you to **quickly innovate, experiment and iterate**. Instead of waiting weeks or months for hardware, you can instantly deploy new applications, instantly scale up as your workload grows, and instantly scale down based on demand.

## **Outcomes:**

- Comprehensive. Changing from on-location stockpiling to the cloud is very easy with AWS because of the contribution they have made in training and education. ...
- Cost-Effective. ...
- Adaptable. ...
- Security. ...
- Improved Productivity. ...
- Innovation.

**2. Action Taken Report (ATR):**

Overall, the AWS Cloud Computing Webinar Conducted for Undergraduate Students was a success, with the students showing a keen interest in the topic and expressing their desire to learn more about cloud computing and AWS. We hope to conduct similar webinars in the future to help students in their career development.
