MARK has provided quality education at very nominal fees to reach out to all the students to excel & explore in the competitive world.

Microsoft Excel

Microsoft Excel gives businesses the tools they need to make the most of their data. And when it comes to making the most of resources, and maximizing return on investment, this is becoming increasingly important. Firms are collecting ever-greater volumes of data from multiple sources, including in-store-transactions, online sales and social media. They need to be able to collate and analyze this information quickly and effectively.

Excel spreadsheets are commonly used across business to display financial information and other data relevant to the running of the business. This could be information relevant to the **customer relationship management department, sales, marketing or HR**. With so many business functions now reliant on IT and the internet, Excel continues to be seen as a vital tool for administration and the effective running of a business.

Excel 2016: Core Data Analysis, Manipulation, and Presentation; Exam 77-727

Successful candidates for the Microsoft Office Specialist Excel 2016 certification exam will have a fundamental understanding of the Excel environment and the ability to complete tasks independently. They will know and demonstrate the correct application of the principle features of Excel 2016. Candidates will create and edit a workbook with multiple sheets, and use a graphic element to represent data visually. Workbook examples include professional-looking budgets, financial statements, team performance charts, sales invoices, and data-entry logs.

MOS 2016 certification exams introduce a new performance-based format for improved testing of a candidate's knowledge and abilities using the MOS 2016 program.

- MOS 2016 exam task instructions generally do not include the command name as a descriptor, for example, "Insert names" are avoided, and are replaced with descriptors. This means candidates must understand the purpose and common usage of the program functionality in order to successfully complete the tasks in each of the projects.
- The MOS 2016 exam format incorporates multiple projects.

MARK has provided quality education at very nominal fees to reach out to all the students to excel & explore in the competitive world.

Microsoft Excel

Microsoft Excel gives businesses the tools they need to make the most of their data. And when it comes to making the most of resources, and maximizing return on investment, this is becoming increasingly important. Firms are collecting ever-greater volumes of data from multiple sources, including in-store-transactions, online sales and social media. They need to be able to collate and analyze this information quickly and effectively.

Excel spreadsheets are commonly used across business to display financial information and other data relevant to the running of the business. This could be information relevant to the **customer relationship management department, sales, marketing or HR**. With so many business functions now reliant on IT and the internet, Excel continues to be seen as a vital tool for administration and the effective running of a business.

Here are five of the top features and benefits of Microsoft Excel:

Build great charts

Excel allows business users to unlock the potential of their data, by using formulas across a grid of cells. Data is inserted into individual cells in rows or columns, allowing it to be sorted and filtered, and then displayed in a visual presentation. Using pie charts, graphs and clustered columns adds meaning to data, which otherwise may just exist as row after row of numbers. These visualizations can add extra emphasis to business reports and persuasive marketing material. Excel recommends charts most suitable for the type of data being presented on the X and Y axis.

Use conditional formatting

Excel users can format their spreadsheets using different colour shades, bolds and italics, to differentiate between columns and bring the most important data to the fore. This function could be useful when presenting accounting information, such as the pre-tax profit and the balance being carried forward by the company. Users can select an appropriate colouring scheme via the Quick Analysis button, and then by utilizing the Formatting tab.

Help identify trends

When presenting data in the form of charts or graphs, it can be helpful to include average lines, which explicitly detail the key trends emerging from the information. This may help demonstrate the key points to other users in a straightforward manner – for instance, an executive from a different department during a board meeting. Excel allows trend lines to be extended beyond the graph, to offer predictions of future activity – and such forecasts can help businesses develop their future strategy.

Bring data together

Excel can be used to bring information from various files and documents together, so that it exists in a single location. As well as raw data and information from other spreadsheets, it is possible to import text and images. Other objects can be added using the Insert tab, or additional spreadsheets can be added to the file.

Excel 2016: Core Data Analysis, Manipulation, and Presentation; Exam 77-727

Successful candidates for the Microsoft Office Specialist Excel 2016 certification exam will have a fundamental understanding of the Excel environment and the ability to complete tasks independently. They will know and demonstrate the correct application of the principle features of Excel 2016. Candidates will create and edit a workbook with multiple sheets, and use a graphic element to represent data visually. Workbook examples include professional-looking budgets, financial statements, team performance charts, sales invoices, and data-entry logs.

MOS 2016 certification exams introduce a new performance-based format for improved testing of a candidate's knowledge, skills and abilities using the MOS 2016 programs:

- MOS 2016 exam task instructions generally do not include the command name as in previous versions. For example, function names are avoided, and are replaced with descriptors. This means candidates must understand the purpose and common usage of the program functionality in order to successfully complete the tasks in each of the projects.
- The MOS 2016 exam format incorporates multiple projects.

About Microsoft Excel

Microsoft Excel gives businesses the tools they need to make the most of their data. And when it comes to making the most of resources, and maximizing return on investment, this is becoming increasingly important. Firms are collecting ever-greater volumes of data from multiple sources, including in-store-transactions, online sales and social media. They need to be able to collate and analyze this information quickly and effectively.

Excel spreadsheets are commonly used across business to display financial information and other data relevant to the running of the business. This could be information relevant to the customer relationship management department, sales, marketing or HR. With so many business functions now reliant on IT and the internet, Excel continues to be seen as a vital tool for administration and the effective running of a business.

Course Goal

This course is aimed at exposing participants to the use of Advanced Excel Tools, formulas and features in intensive data analyses.

Objectives of the course:

1. To teach participants the advanced formulas as well as how to use which formula for which occasion.
2. To equip participants with the knowledge on how to debug and audit the advanced formulas.
3. To explore the magic of analysing data using Advanced Excel

At the end of the course, participants should be able to:

- Preparing Data in a Structured way.
- Format of data to required output using different set of formatting tools such as Conditional Formatting, Format painter, Office Clipboard, Format as table, Cell Styles, Headings, etc.

Report on AWS Workshop

Name of the Department : BCA

Resource Person : Rahul Reddy V

Date : 08th Jun 2023 to 20th Jul 2023

Venue : Basement Lab

Event Coordinator : Manoj Kumar N & Arjun Swamy

Participants : IV sem BCA students

Introduction :

The AWS Workshop was a dynamic and informative event aimed at providing participants with comprehensive knowledge and practical skills in utilizing Amazon Web Services (AWS). Hosted by industry experts, this workshop served as a platform for attendees to delve into the diverse range of AWS services, explore cloud computing concepts, and gain hands-on experience through interactive exercises. By fostering a collaborative learning environment, the workshop enabled participants to enhance their understanding of AWS and leverage its powerful tools for optimized business operations and scalability. This report aims to highlight the key insights, takeaways, and benefits derived from the AWS Workshop, showcasing its significance in empowering organizations to harness the full potential of cloud technology.

Guest Profile :

Rahul Reddy V, Co-founder and CEO, Abhaya Secure.

As a highly skilled and versatile Electronics and Communication Engineer, He has a proven track record of success in multiple fields. He is the Co-founder of Abhaya, a cybersecurity startup that provides innovative solutions to protect businesses from cyber threats. In addition to his engineering background, He also a Full Stack Web Developer and Full Stack Cloud Engineer, which allows him to design and develop custom web applications and provide scalable cloud solutions for clients. His passion for

technology and dedication to solving complex problems made him a valuable asset to any team. He is constantly seeking new challenges and opportunities to grow and learn in my field.

Objectives :

1. Provide a comprehensive understanding of AWS services and their functionalities.
2. Enable participants to effectively navigate and utilize various AWS services.
3. Promote adherence to security best practices and compliance frameworks in AWS.
4. Demonstrate the benefits of scalability and cost optimization in AWS deployments.
5. Foster collaboration and knowledge sharing among participants in the AWS community.

Brief event report:

Introduction:

The AWS Workshop, held on [date] at [venue], was an engaging and informative event focused on providing participants with comprehensive knowledge and practical skills in utilizing Amazon Web Services (AWS). The workshop brought together industry experts and enthusiasts to explore the diverse range of AWS services, delve into cloud computing concepts, and gain hands-on experience through interactive exercises.

Key Highlights:

Comprehensive Learning: The workshop commenced with an overview of AWS, covering fundamental concepts such as cloud computing, key services, and architectural principles. Participants gained a solid foundation, enabling them to understand the breadth and depth of AWS offerings.

1. **Hands-on Experience:** Through practical demonstrations and interactive exercises, participants had the opportunity to explore various AWS services firsthand. They learned how to navigate the AWS Management Console, provision resources using Amazon EC2, store and retrieve data with Amazon S3, and build serverless applications with AWS Lambda. The hands-on activities ensured a deeper understanding of AWS capabilities.
2. **Security and Compliance Focus:** A significant emphasis was placed on security best practices and compliance frameworks in AWS. Participants learned about AWS Identity and Access Management (IAM), encryption options, and the AWS shared responsibility model. They gained insights into implementing secure and compliant AWS environments to protect their data and applications.
3. **Scalability and Cost Optimization:** The workshop highlighted the scalability and cost optimization features of AWS. Participants discovered how to leverage auto-scaling and load balancing to handle varying workloads efficiently. Additionally, they learned about AWS cost

management tools and strategies to optimize resource utilization and minimize expenses, making their AWS deployments more efficient and cost-effective.

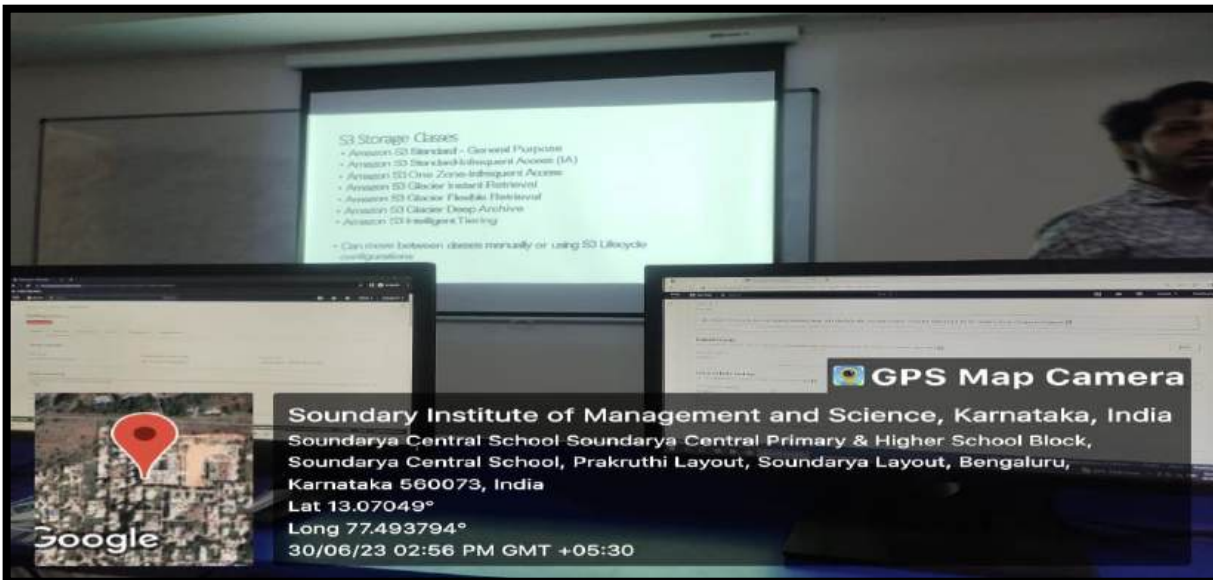

4. Collaborative Environment: The workshop fostered a collaborative learning atmosphere, encouraging participants to network and share knowledge with peers. Through group discussions and Q&A sessions, attendees had the opportunity to exchange ideas, gain insights from real-world scenarios, and build a network of like-minded professionals within the AWS community.

Conclusion:

The AWS Workshop proved to be a valuable and enriching experience for all participants. By providing a comprehensive understanding of AWS services, promoting security best practices, emphasizing scalability and cost optimization, and fostering collaboration, the workshop equipped attendees with the necessary skills to harness the full potential of AWS in their organizations. The event served as a stepping stone for participants to embark on their cloud computing journey with confidence and expertise in AWS.

Photos

Outcomes :

1. Enhanced Understanding: Participants gained a deeper understanding of AWS services, architecture, and key concepts.
2. Practical Skills: Attendees acquired hands-on experience in navigating and utilizing various AWS services effectively.
3. Improved Security Measures: Participants learned to implement security best practices and compliance frameworks in AWS environments.
4. Scalability and Cost Optimization: Participants gained insights into leveraging AWS features for scalable and cost-effective infrastructure.
5. Networking Opportunities: The workshop provided a platform for participants to network and engage with like-minded professionals in the AWS community.

Workshop Invitation

ATR: The AWS workshop was successfully organized, with a carefully selected venue arranged to provide an optimal learning environment. Experienced speakers were invited to deliver engaging sessions and facilitate interactive exercises. Comprehensive workshop materials were prepared and distributed to participants. Hands-on labs were set up to offer practical learning experiences, feedback was collected for evaluation, and a collaboration platform was established to foster ongoing engagement among participants.

AWS Certification Exam Announcement:

We are excited to announce that the AWS Certified Cloud Practitioner exam will be conducted on 18th August 2023. This certification exam provides a foundational understanding of AWS cloud services and is an excellent opportunity for participants to validate their AWS knowledge and skills.

Exam Details:

Date: 18th August 2023

Venue: Basement Lab (Online)

Exam Type: AWS Certified Cloud Practitioner (Online)

Exam Format: Viva and Practical Sessions

Exam Coordinator: Manoj Kumar N

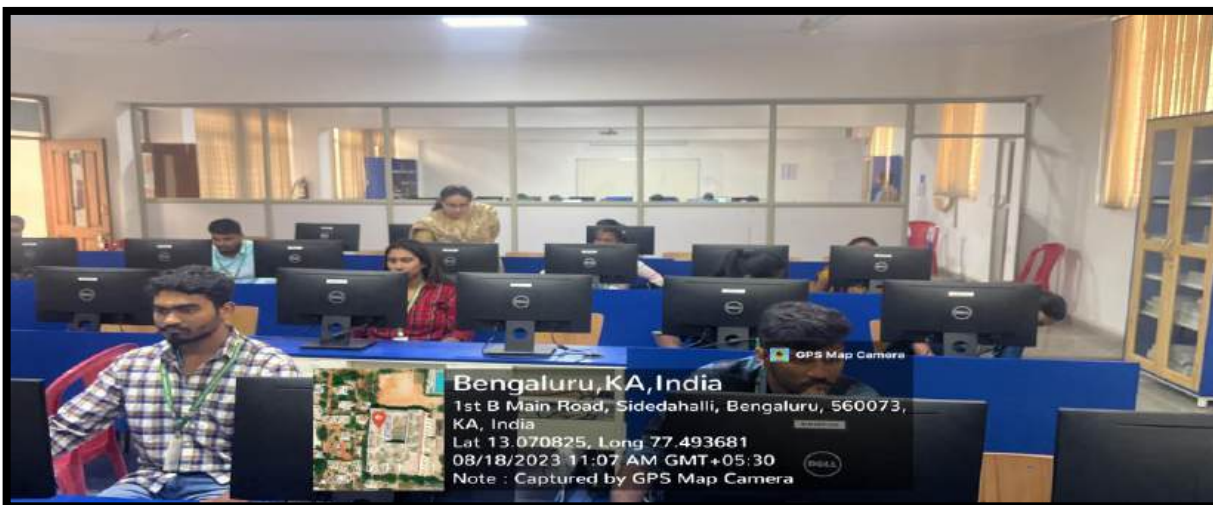

Venue: Basement Lab

This certification serves as a valuable credential that demonstrates your expertise in AWS and can open doors to various career opportunities in the cloud computing industry. We encourage all workshop participants to consider taking this exam to further enhance their AWS proficiency.

For more details about the exam, registration process, and preparation resources, please stay tuned for updates and announcements.

We look forward to seeing you succeed in your AWS certification journey!

Report on Machine Learning

Name of the Department: BCA

Organised by: SIMS

Resource Person: Ankith Hegde

Date: May 2023 to June 2023

Venue: Basement Lab

Participants: VI sem BCA students

Introduction:

The showcased Machine Learning (ML) projects highlight the transformative potential of ML algorithms in various domains. From predicting emotions in textual tweets to forecasting stock market trends, detecting fraudulent bank payments, and modernizing loan approval systems, ML offers innovative solutions to complex problems. Additionally, ML algorithms play a crucial role in predicting crop yields in Indian agriculture, identifying psychological tendencies, and enhancing academic performance predictions. These projects underscore the versatility and effectiveness of ML techniques in addressing real-world challenges across diverse sectors, showcasing its pivotal role in driving innovation and efficiency.

Objectives:

1. Explore applications of ML in various domains.
2. Enhance understanding of ML algorithms and techniques.
3. Foster practical skills in implementing ML projects.
4. Promote critical thinking and problem-solving abilities.
5. Encourage collaboration and innovation among students.

Brief event report:

Students initiated projects by selecting relevant ML applications, underwent rigorous data preprocessing, model training, and evaluation phases, culminating in project presentations and Vivas, fostering comprehensive understanding and practical implementation of ML concepts.

Outcomes :

1. Enhanced proficiency in ML algorithms and their applications.
2. Developed practical skills in data preprocessing and model implementation.
3. Improved presentation and communication abilities through project demonstrations and Vivas.
4. Fostered critical thinking and problem-solving skills in real-world scenarios.
5. Encouraged collaboration and knowledge sharing among participants, fostering a conducive learning environment.

Event Report for the academic Year 2022 - 23

- **Title:** WORKSHOP ON IOT WITH RASPBERRY PI
- **Date:** 14/11/2022 To 16/11/2022
- **Time:** 30hrs
- **Venue:** Basement Computer Lab (SIMS)
- **Beneficiaries:** 1st year students
- **Event Coordinator/s :** Mr. YATISH S J and Mr.s JENISHA

Objectives:

1. Provide introduction to Internet of Things (IoT)
2. Exposure to various sub-fields and technology stacks of IoT
3. Enable people to convert their IoT product idea into a working prototype
4. Provide thorough working knowledge of the Raspberry Pi Platform
5. Bring-up entrepreneurs and innovators by supporting them with investment and mentorship

Brief Event Report:

The IOT workshop was a three day event held on November 14, 15, and 16, 2022.

The first-year BCA students were the target audience for the workshop.

The top-performing teams from among the students who participated and were put into groups would be granted internship opportunities.

The IOT kit, which was given to each team, contained the following items:

- Micro USB,
- LED,
- Relay module,
- DHT11 sensor,
- PIR sensor,
- Breadboard,
- Jumper wires,
- ESP8266 node-MCU

As far as we are aware,

"The Internet of Things (IoT) is a system of interconnected computing devices, mechanical and digital machines, objects, animals, or people that are given unique

identifiers and the capability to transfer data over a network without necessitating human-to-human or human-to-computer interaction.

This training equipped the IOT with everything needed to understand WHAT THE HACK THIS INTERNET OF THINGS IS.

The workshop involved the concepts to be taught to the students:

1.INTRODUCTION TO IOT:

- What is Internet of Things ?
- Getting started with IoT
- Introduction to Internet of Things (IoT)
- Why as IOT?
- How IOT became 21st Century Hottest Topic
- How Internet of Things works
- How Things Talk to Internet

2.IOT ARCHITECTURE ESP8266 Node-MCU:

Hardware Introduction

- what is ESP8266 node-MCU
- Hardware knowledge
- Handshake with ESP8266
- Developing the environment
- Overview about the board
- Popularity & scope

3.THE PIN DIAGRAM

- Introduction to PIN diagram
- Pin outputs and PIN inputs
- Feature that makes it difficult
- Analog and digital pinout

4.CONTROLLING THE DIGITAL OUTPUT ENVIRONMENT

- Working : Going its details
- Types
- Programming LEDS
- Making circuits on breadboard & glowing patterns

5.SENSORS

- what is Sensor?
- How sensors work?
- Knowing your sensors

Outcomes:

1. Current scenario/job opportunities of embedded industries.
2. Understanding the skill set required in a new employee in the embedded industry.
3. Understanding the robotics future and scope Understanding the different microcontrollers available in the industry & their use.
4. In-depth knowledge on design, construction and programming concepts involved in building an autonomous robot Learn & Interact with renowned Industry Experts.

Dear Sir,

We are associated with RV Center of Excellence in training our students on IoT. The training session conducted in the past was excellent. Both students and management were happy about the conduct. In continuation, We request to have same kind of training this year also for my 1 year BCA students who are about 100 students.

Training dates : Nov 9th to Nov 11th

Training cost : Rs.2000/- per student inclusive of GST

Looking forward.
